		-	50	-	130	180
Summary of the Event		<p>Event Summary:</p> <p>Education is about gaining the knowledge and the skills needed to become a better person and create a better society to live in. And for it to manifest, students need to be provided with a proper learning environment.</p> <p>The ZPHS Mallaram, an upper primary school lacked in the infrastructure facilities for both the teachers as well as the students. We made sure that we fixed it by providing students with the necessary lab equipment's and sports equipment's. We also managed to provide them with furniture such as chairs, tables and almirah for the office purposes along with the electrical equipment's such as fans and lights.</p>				

IRG (in rupees)	Nil
Expenditure (in rupees)	117902
POs attained with this Event (number and description)	a. Understand the impact of engineering solutions in a global, economic and societal context. b. Understanding of professional and ethical responsibility. c. Work effectively as an individual or in a team and to function on multidisciplinary context. d. Communicate effectively with engineering community and society.
Photographs of the event (Hard copy and Soft copy)	 <p>The photograph shows a group of approximately 12 people, including students and faculty, standing behind a long table. The table is covered with a vibrant, multi-colored floral patterned cloth. On the table, there are several stacks of books and educational materials. Some of the visible titles include 'Introduction to Engineering' and 'Engineering Graphics'. The people are dressed in a mix of formal and semi-formal attire. The background shows an outdoor setting with trees and a building.</p>

Summary of the Event		Living under darkness is considered to be one of our worst fears. The tribal people of Kothagudem at Khammam district, have been living through this fear for greater part of their lives. So, we the people of Street Cause decided to aid in by installing 24 solar street lights and made our attempt to bring light into the people's lives over there.

<p>Summary of the Event</p>	<p>Team handball is a team game and is played popularly by the worldwide nations and is recognized by the International Olympic Association. It is also played professionally in many European countries. In Asia, including India this game has become significant among other popular games. There are 31 million players, trainers and referees worldwide. It is a team sport where two teams of seven players each (six players and a goalkeeper) pass and bounce a ball trying to throw it in the goal of the opposing team.</p> <p>We at Street Cause-GRIET have made an attempt to serve the district level handball players by supplying them with essential groceries and sanitary products. In this pandemic situation it has been difficult from them to cope up with practice and to earn a living for their basic needs. Humanity is when we realize others troubles and do our small part to make their lives better!</p>

<p>Summary of the Event</p>	<p>One of the best ways for efficient usage of resources for the benefit of mankind is to reduce, reuse and recycle. Keeping this in mind we the members of Street Cause-Griet conducted the BIG BOOK WEEK event, which is an annual event in our college. It took place for five days. As a part of this event, we collected old papers and books from the students and also the lab records and observation books from all departments in the college. Finally, all the collected material was sent to ITC for recycling. Through this event we managed to raise the revenue and also at the same time were able to contribute towards a greener society by collecting and recycling the paper waste. The revenue earned from this event would be further used in other social welfare activities.</p>

Participants (Teaching Faculty / NonTeaching Faculty / Students)		No.of Faculty	No. of UG students	No.of PG Students	No.of outside participants	Total Participants
		-	50	-	125	175
Summary of the Event		<p>Pulse Polio is an immunization campaign established by govt. India to eliminate polio in India by vaccinating all children under the age of 5 years against the polio virus. This is our attempt to ensure that young children don't face any kind of trouble during this pandemic. This lockdown has been very harsh for most of the people throughout the nation and here's our small attempt to help children as much as we can. Keeping this question in mind we Street Cause-GRIET will take an initiative to participate in this event, we the members of Street Cause-</p>				

	<p>GRIET will volunteer the whole event with at most care, so that no child in that particular area is left without vaccination. Humanity is when we realize others troubles and do our small part to make their lives better!</p>
